

PROTECTING LIFE
AND CRITICAL ASSETS
FOR COMPANIES
AROUND THE WORLD

///
OUR MISSION IS SIMPLE,
YET EXTREMELY CRITICAL.

A large orange triangle pointing downwards from the top left corner, partially overlapping the first text block.

Fike provides reliable, expertly engineered protection solutions for Fortune 500 companies and other growing businesses in a variety of global market sectors.

Our mission is to prevent serious accidents or disasters from occurring by working to ensure continuous safety and operational stability for our customers.

This responsibility demands the unrelenting dedication of each and every one of our employees in an effort to eliminate any margin for error.

PERFORMANCE PROVEN BY DECADES OF SUCCESS

Fike has earned a reputation for reliability along with our customers' trust through more than 70 years of consistent product performance.

During that time, we have remained true to our purpose by pioneering advancements in comprehensive fire suppression and explosion protection systems. We have also led the industry with innovations in pressure relief systems and rupture disc technology.

Every Fike product is built with absolute precision – a fact that means even more since your complete peace of mind requires nothing less.

TESTED BY FIRE, DESIGNED TO LAST

Research and development is at the core of our innovative and patented products. By anticipating future needs, we are constantly driving new technologies and creating custom-engineered solutions for specific customer applications.

Every product we manufacture goes through rigorous testing and re-testing to ensure absolute quality and precision.

Full-scale tests are conducted at our state-of-the-art testing laboratories in accordance with ASTM and CEN standards.

We also conduct on-site tests accounting for your unique operating parameters and plant procedures.

INDEPENDENTLY CERTIFIED QUALITY

Fike products and services are typically designed to meet a well-defined need, use or purpose; satisfy customer expectations; and comply with applicable quality standards and industry specifications as set forth and certified by ISO 9001-2008 and AS9100 Rev C Management Systems.

FIKE SERVES MANY DIVERSE MARKETS WITH FOCUSED EXPERTISE
